**Attachments:** Air Toxics SIT Exec Board Briefing 3-14-18 draft.pptx

Here's the rough cut with some background from the last presentation and the 7 question slides with what we got from the Outline. I haven't done any editing yet, I was hoping you might provide some guidance on how you see this going, or what direction we want to take some of the slides (like the challenges).

I see R10 added some data to the data table, but nothing to the outline, so we've technically heard from 5 of 10 regions. My acting branch chief, Marcia Mia is currently stalking AED, so we may hear something from her or them by the end of today.

Let me know if you think it would be easier to have a quick call to discuss. Thanks.
